EXECUTIVE SUMMARY

In December 2003, Congress legislated and the President signed the Medicare Modernization Act of 2003 (MMA). Section 508 of the MMA instructed the Secretary of Health and Human Services to issue instructions for one-time, three-year hospital geographic reclassification appeals to the Medicare Geographic Classification Review Board (MGCRB) to be submitted by February 15, 2004. Hospitals that were approved by the MGCRB would receive a three-year reclassification for discharge occurring April 1, 2004 through March 31, 2007. A three-year budget of \$900 million was legislated to pay for these reclassifications designed to help hospitals that were unable to meet the MGCRB reclassification guidelines but needed wage index reclassifications. The MGCRB approved 121 hospitals for these reclassifications.

The Centers for Medicare & Medicaid Services (CMS) issued instructions in the January 6th Federal Register (and corrections on February 13th) interpreting the statute. CMS set forth eight criteria (2a – 2h) for the MGCRB to approve applications. Criteria 2a through 2g were targeted to specific hospitals and hospital groups for reclassification.

CMS stated in the Federal Register: “After decisions by the MGCRB based on hospitals meeting criteria 2(a) through 2(g) above, ... the MGCRB may approve a hospital to be reclassified if the hospital’s 3-year AHW (average hourly wage) is at least 106% of the 3-year AHW of the hospitals geographically located in the area in which the hospital is located”. The hospital would be reclassified to another MSA in the state with a 3-year AHW nearest to the individual hospital’s AHW. The hospital must have a 3-year AHW equal to or greater than 82% of the target area’s 3-year AHW.

There were 155 2(h) hospitals (including Regional Medical Center of NE) that were approved by the MGCRB but only one hospital (Samuel Mahelona Memorial Hospital in Kapaa, Hawaii) was funded. The \$900 million was apparently exhausted with only one 2(h) hospital receiving the 3-year reclassification.

We further ask Congress to consider a supplemental appropriation to approve, in part at least, to fund the hospital appeals that met the criteria, but were not funded by CMS as a result of the formula used to limit approved hospital funding.
